2 of 2 people found the following review helpful. Simple, Effective, To the Point.By DylanSometimes we all need a reminder as to what's truly important in acheiving our goals. A simple message, though frustrating, can often be the catalyst for something great. Dr. Bengston definitely "hits the nail on the head" with his message, which could likely be applied to any of your aspirations or goals in life.1 of 1 people found the following review helpful. Very short, but accurate and to the point.By N. rootkitThis book, while succinct, does sum up everything you need to know about weight loss. I wish more books were this blunt and honest with what most people need to do to achieve their goals. I haven't put this action plan into motion yet, but I am expecting great results.0 of 0 people found the following review helpful. One StarBy JK WilliamsThere is only one sentence in this book "Try harder".

A rapid way to get results now with no gimmicks! Dr. Bengston has been helping people lose weight for decades with excellent results. Unlike other weight loss books, this one does not require you to use any special equipment or utilize dangerous fad diets.
